LOTS OF FISH AT PAINTERS ON BIG KERN

PORTERVILLE, June 27—"Lots of fish" is the report from a group of Porterville sportsmen who returned early this week following a stay of several days at Painter's camp on Big Kern river, above Kern flat.

A number of 12-15 inch Rainbow were taken and "all the smaller trout you wanted", plus a couple of rattlesnakes.

While the party was at the historical river camp, one of the Nevada atomic blasts shook the canyon, and a jet plane just above the tree tops practically tore up the pack train on the way out.

In the party were: John Guthrie, and son, Less, with his guest, (Continued on page 12)

Former Big Leaguer On Fishing Trip

PORTERVILLE, June 27—Harry Hooper, for 16 years a ball player with the Boston Red Sox of the American league, was a guest last week of Ross Welch, retired game warden, on a pack trip to Lower Funston.

Also in the party were Lt. Col. Harry Hooper Jr., from the El Toro base of the U.S. Marines; Lt. Col. Frank Smyth, also from the Marine base; and John Hooper, an official in the Sun Oil company from Beaumont, Texas, and also a reserve major.

Welch reports that Harry, Sr., an old friend of Welch's, caught a 22-inch Rainbow in Big Kern, at Lower Funston. No fish were caught on Golden Trout stream, however, Welch reports.

WHEAT PROGRAM APPROVED BUT ONLY 34 VOTE

VISALIA, June 27 — Wheat growers of Tulare county joined growers of the nation last Thursday in approving continuation of wheat marketing quotas.

However, with 146 eligible wheat growers in Tulare county, only 34 took time to vote, of which 26 were in favor of the program and eight in opposition.

THE FARM TRIBUNE STARTS ELEVENTH YEAR; WE THINK OUR FIRST THREE EDITORIAL POINTS ARE STILL GOOD

By Bill Rodgers

PORTERVILLE, June 27 — At the risk of being accused of blowing our own horn, we still must mention that this issue marks the beginning of the eleventh year of operation for The Farm Tribune.

And we must further mention that we think our first three editorial points, printed in the first issue of the paper, are still good.

We stated then that we believed Porterville should have a yearly agricultural and livestock show; that Porterville high school should have a school farm, and that fresh orange juice should be offered at a reasonable price in

WHITE HEREFORD bull at the Herman A. Vossler ranch west of Porterville is still white at the age of 16 months and is apparently going to hold its color, although most cattle breeders say a white Hereford is "impossible." Mr. Vossler says the calf is out of a purebred, but unregistered cow, bred to a registered Hereford bull. And he completely discounts another theory of cattle breeders that "somebody's white bull must have jumped the fence." University of California men say the white calf might have a pigment deficiency, but Mr. Vossler believes his calf is the "one in a million" animal that sometimes comes out of an old, established breed. At any rate, he plans to use the bull, shown above in a field at the Vossler ranch, and also as a three-week-old calf, for breeding purposes to see what color calves it will produce. The white bull has good Hereford conformation and has done well since it was a small calf.

(Farm Tribune photos)

NEW POSTAL RATES EFFECTIVE JULY 1 COVER "SPECIAL SERVICES"; NO CHANGE FOR FIRST CLASS LETTERS OR AIR MAIL

PORTERVILLE, June 27 — New postal rates that become effective July 1, generally relate to "special services", without any increase, as yet, in first class letters and air mail, according to Assistant Postmaster John W. Baker.

Rate increases have been announced on registered mail, with minimum charge going to 50 cents from 40 cents; charge is scaled upward on a basis of value.

Certified mail will increase from 15 cents to 20 cents; special delivery will go from 20 cents to 30 cents on letters; a slight increase has been announced for insured mail.

Money orders of from \$1.00 to (Continued on Page 12)

TERRA BELLA EXPANSION PLAN MOVING

TERRA BELLA, June 27—With minor details apparently ironed out, Terra Bella Irrigation district request for an interest-free federal loan to finance improvements within the district was "started through channels" last Friday.

Howard McNeill, manager of the district, states that minor changes in the contract were approved by Clyde Spencer, regional director of the bureau of reclamation in Sacramento, and that the contract in final form is now on its way to the Department of the Interior in Washington by way of bureau offices in Sacramento and Denver.

The contract calls for a federal, interest-free 40-year loan of \$3,570,000 to finance construction of a water distribution system that would bring 5,600 acres of district-owned land, and 2,000 acres (Continued On Page 2)

\$185 Waiting For Silver Bonus Shopper In Porterville Tuesday; You — Yes You Might Be A Winner

PORTERVILLE, June 27 — The pot still grows! Next Tuesday \$185 is waiting for a lucky Porterville shopper who trades at one of the Silver Bonus stores advertising on the Silver Bonus pages of this issue of The Farm Tribune.

The stores that are participating in the Silver Bonus plan are: Spalding Lumber company, The Sportsmen, Juven-Aire, Claibes Prescription Pharmacy, J. B. Hill company, J. J. Newberry company, Esther's Home Furnishings, Williams Jewelers, Bullard's, Larry Main, Wheeler Furniture, Clark Paint Store, Jones Hardware Company, Hartman's, Daybell Nursery, Clare-Retta Shop, Weisenberger Farm Supply and Ferguson's New City Cleaners.

By simply trading at any one of these stores on Silver Bonus day next Tuesday, you become eligible for the \$185 Silver Bonus in whole or part, if you have a sales slip — from any Silver Bonus

Griggs Butane In Major Move On New Freeway

PORTERVILLE, June 27—Work is underway on the northeast corner of Tea Pot Dome road and 65 highway on new location for Jack Griggs Inc. Butane and Propane service.

Griggs says that he plans to construct a terminal for butane and propane with 25,000 gallons of storage and will operate his delivery trucks from this new location.

He plans to leave his appliance store and office at its present location on East Date street, and will also fill small tanks — such as those used on trailer houses — at the Date street store.

Large storage facilities and major operation of trucks however, will be moved to the new location, which will represent another important development in an area that seems to be pointed toward industry.

FARMERS FIGHTING GRASSHOPPERS

PORTERVILLE, June 27—Farmers of Tulare county are fighting an infestation of grasshoppers generally along the foothills, and while the overall county situation is not classed as "severe", some damage has been reported.

Relatively heavy infestation is reported from the Success valley area, where several framers are putting out bait; in the Orange Cove district in the northern area of the county, some damage to citrus is reported.

Hatch is originating in the foothills and the hoppers are appearing in the Porterville city area and in the surrounding farm area.

Elvin Mankins, county agricultural commissioner, says that no general, county-wide control plan has been started, that individual farmers are taking control measures where necessary.

Mankins says that the hoppers (Continued On Page 2)

Tony Ramos Is New Strathmore Store Owner

PORTERVILLE, June 27—Tony Ramos will take over next Monday as new owner of the Morton Feed - Appliance store in Strathmore, following eight years as manager of Cotton Center Hardware and 10 years, prior to World War II, with Jones Hardware company in Porterville.

Mr. Ramos states that he will add to the line of general hardware and will put in an added stock of electrical and wiring supplies. The store will operate as Morton's Feed - Appliance and Hardware.

The Ramos family has also purchased the L. C. Morton home in Strathmore and will move there to live. Mr. and Mrs. Morton plan to build on their new citrus acreage on the Frazier Valley highway (Continued On Page 2)

IT'S HOT!

PORTERVILLE, June 27 — It's been hot — the record proves it, if you haven't noticed. Daybell weather station figures show 106 degrees last Sunday; 112, Monday; 111, Tuesday and 106 yesterday.

CITY GETS BABE RUTH PLAYOFFS

PORTERVILLE, June 27 — Porterville has been selected for the 1957 California State Central Division Babe Ruth League playoffs, it was announced today.

Valley teams will compete in the playoffs at Municipal field, July 25, 26 and 27; a double header is slated each evening, starting at 6 p.m.

JULY 15 NEW DATE FOR CONTINUED COURT HEARING ON LAND POSSESSION IN SUCCESS AREA; PAYMENTS HELD UP

PORTERVILLE, June 27—Federal court hearing in Fresno through which the United States Army engineers seek immediate possession of land involved in the Success dam and reservoir project has been continued to July 15.

Low bidder on dam construction is the Green Construction company of Des Moines, Iowa, however, the contract cannot be awarded until the engineers obtain possession of the land.

A. E. McCollum, district engineer, of Sacramento, states that unless the contract is awarded by July 24, the Green company can withdraw its bid.

If a court decision is made on the matter of land possession prior to that time, it is believed the project will go ahead, since the contractor must start work within 10 days after the contract is officially awarded.

However, there is also the matter of how long owners of land will be given to vacate, so it is possible that even though the case

is completed in court on July 15, prescribed time to vacate the land might be granted, which would put the possession date past the deadline date for awarding the contract.

Another factor in the situation is a delay by federal attorneys to approve actual payments to land owners. Several owners are attempting to get payment for their land, but there has been no action as yet to approve payments, although money has been deposited by the engineers to cover estimated cost of land involved in the project.

Property owners can accept payment of the amount the federal government has offered and still negotiate for final land price, it is stated.

Luau Opening Monday Will Bring Another Classy Eating Place To The Avenue; "Everybody" Swimming

PORTERVILLE, June 27 — Opening of The Luau Monday will bring another fine emporium of food and drink to the avenue — and in this case a very colorful and unusual establishment.

For Proprietor Al Soares has worked up real South Pacific atmosphere in his new establishment (next door to The Farm Tribune) and we predict that you will be more than pleasantly surprised when you first see the interior of The Luau.

And if the avenue seemed a bit quiet during the week of 106-112 degree weather, everyone was probably swimming in the Porterville municipal pool; a record 1,003 persons checked in there on Tuesday.

Taxes — it appears that officials of incorporated cities, including Porterville, and county supervisors may get together on kickback from city sales tax if the county passes a one per cent sales tax to make a uniform four per cent tax. Deal may be five per cent from the cities to the county, with a reappraisal of the deal after a year of operation.

Mrs. Maggie Moore and Charles Holston were married June 25 at the Methodist church in Las Vegas.

A bit of an issue, but only a bit, at the last meeting of directors of the Sierra View District hospital. Dr. Philip S. Barber challenged directors on when there will be another election of board members (answer, 1958); "there are 25 doctors who will be working at the new hospital and we want to be considered", answer from Hospital Administrator

Tony Ramos

(Continued From Page 1)
way, however, Mrs. Morton plans to continue to sell Ironrite ironers out of the Strathmore store.

Mr. Morton says that his present plans go no further than "just sitting in the shade of an orange tree." Mr. and Mrs. Morton had operated their Strathmore business for 32 years.

Mr. Ramos was raised in Success valley, attending the Citrus South Tule elementary school, then Porterville high school. He and Mrs. Ramos have two children, a son and daughter.

Terra Bella

(Continued From Page 1)
of privately-owned land within the district under irrigation.

Before the loan can be obtained and work started on the project, the contract must be approved by the Secretary of the Interior and the California Securities commission, after which an election will be called on the matter within the Terra Bella Irrigation district.

A two-thirds vote by registered voters within the district is necessary, plus approval by Superior court, before the contract can be finally consummated and the project started.

Robert J. Miller, and district directors, the board has been working with doctors on a basis of recommendations brought to them as a result of doctors' staff meetings; Dr. Barber said he had not been notified of the Sierra View board meeting, that he had heard through the grapevine. He said he had attended more meetings in the past than some of the district directors. District Director Jim Richards upheld his attendance record as a director and mentioned that other doctors seemed to know about district board meetings.

Judge John L. Stewart is now sentencing those who commit misdemeanors inside the Porterville city limits to the Porterville city jail.

Farmers Fighting

(Continued From Page 1)
will eat practically any kind of foliage and that if an infestation appears adjacent to a field in which crops are growing, or adjacent to orchards, control measures should be taken.

Formula for poison bait is: One sack of bran, six sacks of sawdust, and two quarts of sodium arsonite, with sufficient water to mix into a mash. Twenty-five pounds of the poison mix is used per acre.

The bait should be put out in the early morning, since when the temperature gets to 85 degrees, the hoppers move off the ground, and after the bait dries out, it is not effective.

He says that in some areas, bait is put out from about 2 a.m. until 9 a.m.; the poison bait may be used in fields with livestock provided it does not "ball up."

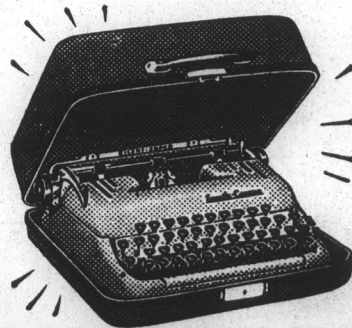

Bait can be prepared at the office of the agricultural commissioner in Visalia; a supply of poison and bran can be obtained at the office, with the person using the mix to be billed by the firm supplying the material.

Farmers must bring their own sawdust and extra sacks for the prepared poison mix.

Mankins says that an effective spray has been used in the Woodlake area: A half gallon of Dieldrin to five gallons of water per acre.

Best control is obtained if the hoppers are caught before the stage in which they take wing.

FISHIN'

By Slim Washburn

Fishing is very good on all branches of the Tule river. The water is dropping rapidly and is low and clear. Fly fishing is excellent.

Planting of catchables continues on all branches of the Tule, with fish running to nine inches. The North fork (Jack flats) being planted now, as well as regularly stocked areas. Easy limits on salmon eggs, cheese baits and small spinners. One 19½ inch Lochleven caught on a Helgramite on the Nelson fork.

Big Kern and Little Kern rivers, reached from Quaking Aspen pack stations, improving as the water is dropping. Summit, Maggie and Blossom lakes good.

Bass and Bluegill fishing good again in the commercially licensed ponds below Springville.

Scholarship Offered By Association

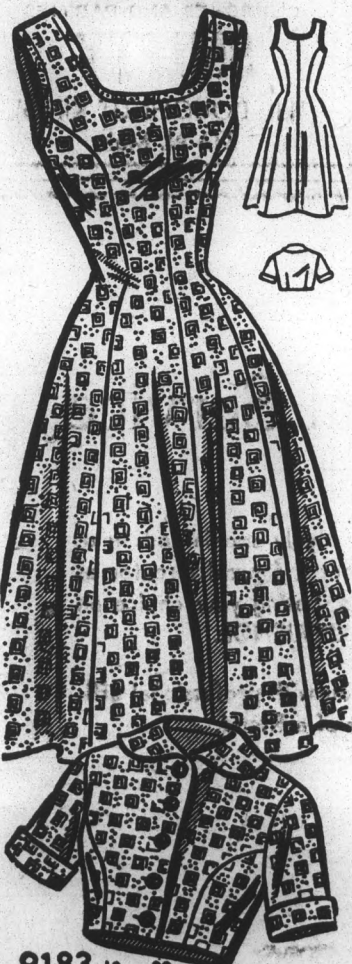

PORTERVILLE, June 27—The Porterville Association for Retarded Children is offering a scholarship award of one hundred dollars to any Tulare county teacher with two years experience. Any one interested in this scholarship, write to Scholarship, P. O. Box 742, Porterville, California, for application forms. The money for this award is raised annually by a rummage sale. Mrs. Linford Fricke received the award for 1956.

ORIENTAL FRUIT MOTH CONTROL DATA GIVEN BY FARM ADVISOR ON BASIS OF PRESENT SITUATION IN TULARE COUNTY

By John H. Foott,
Farm Advisor

VISALIA, June 27 — The trend as of June 21 shows a sharp increase in number of Oriental fruit moths flying. This represents the rise of the third flight.

Worms found in the foliage at this date were at a low ebb. It is possible to find a few maturing worms. This indicates that the new brood of worms should show an upward trend shortly. We anticipate that the next brood of young worms will show in good numbers within the next 10-day period.

For August ripening peaches we believe that treatment should not begin now. Hold off until hatching gets under way.

Fortunas and other early varieties present a very special problem. There may be time for only one treatment to clear residues, and therefore this application should be applied immediately. Count back 21 days from anticipated ripening date and apply 50 pounds of 10% DDT dust per acre one time only. If the anticipated date is less than 21 days, then cut the dust to 50 pounds of 5% DDT dust and try to get it on at least the 15th day prior to harvest.

The special treatment for early

July fruit may be out of step for treatments applicable to later ripening fruits.

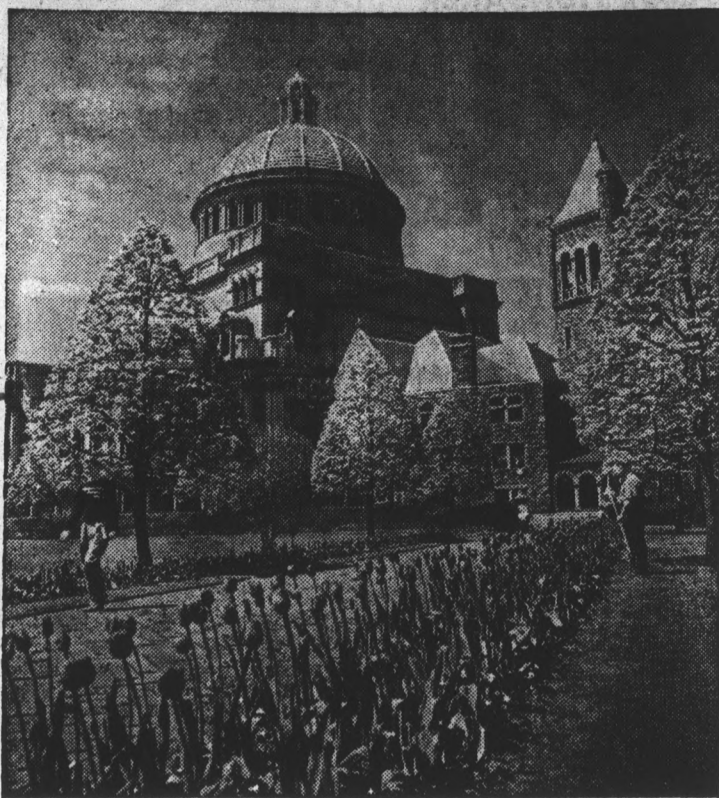

The minimum time limit before harvest date — 21 days for 10% DDT dust or 15 days 5% DDT dust are based on our own residue date. The Agricultural Extension service cannot advise to apply beyond these dates even though it may be desirable for more complete control.

59 CARS VALENCIAS LEFT TO GO

PORTERVILLE, June 27 — With 49 cars of Valencia oranges moving through the Tulare County Citrus Fruit Exchange this week, an estimated 59 cars remain to be shipped according to Exchange Manager Stanley Trueblood.

As of last Saturday, 1,333 cars of Valencias had been shipped this season — 177 more cars than on the same date last year. Forty-six per cent of the crop has gone into export.

Although earworm is beginning to show in Tulare county corn fields, no control measures are recommended, since damage is usually rather insignificant.

THE MOTHER church, The First Church of Christ, Scientist, in Boston, where, at the recent annual meeting, Miss Mabel Ellen Lucas, of Brookline, Mass., was elected president of the church.

Winter carrot harvest is about completed in Imperial valley; carrots are beginning to move from Watsonville and Salinas.

16 Per Cent Of Cling Peach Crop Eliminated

SACRAMENTO, June 27 — Sixteen per cent of the California cling peach crop in production for delivery to processors in 1957 will be eliminated under a surplus regulation issued by the state director of agriculture pursuant to the Marketing Order for Canning and Freezing Cling Peaches.

The order was given on recommendation of the Cling Peach Advisory board. Administrative rules and regulations to carry out the "green drop" elimination program have been issued and will be mailed to producers and processors of cling peaches.

California Wool Growers' association will hold its 97th annual meeting in Stockton, August 7-8.

FARMERS MUST FACE REALISM

(A continuation of ideas expressed by Secretary of
Agriculture Ezra Taft Benson)

Farmers repeatedly vote for marketing quotas by wide margins, but actually they have no realistic choice. If quotas are voted down, the price support is only 50 per cent of parity and farmers must stay within their allotments if they wish to receive even this low support.

Furthermore, quotas have not been restrictive enough to balance supply and demand. In 1956 accumulated stocks of wheat were so heavy that a quota of only 12 million acres would have been sufficient to adjust supplies to normal demand, as defined by law.

But to deal with this situation, Congress provided a minimum national allotment of 55 million acres.

Farmers favored a cotton quota, based by law, on 17.6 million acres when a quota of four million acres would have been required to adjust to normal. For both wheat and cotton, the allotment on which farmers voted was more than four times as large as would be needed to adjust supplies to normal.

President Eisenhower's recommendation for quantity allotments for cotton and other crops was turned down by Congress.

Some people recommend extending acreage controls to the feed grains and the oilseed crops, a step that would approximately double the number of acres under government control.

But experience suggests that we should move away from acreage control rather than toward more control.

The acreage reserve part of the Soil Bank program came into being due to the intolerable situation caused by mounting stocks of food. It must be used to reduce accumulated stocks. It must not be allowed to become permanent. A permanent program which subsidizes non-production is contrary to our American tradition.

The evidence of the past 24 years is inescapable. Farmers will not accept, legislators will not vote, and, from a practical standpoint, administrators cannot impose the kind of controls which, at the price objective specified by law, would be necessary to bring production into line with market outlets.

(Continuation of Mr. Benson's ideas next week)

Disabled Persons May Claim Social Security Payments

FRESNO, June 27 — More than one hundred thousand severely disabled people in communities all over the nation will receive their first social security disability insurance checks in August, Stuart Anderson, district manager of the Fresno office announced today.

But many other eligible disabled workers 50 to 65 years of age, many of them no doubt living in this area, have so far failed to make application to their social security offices. Those who have been disabled for work for a long time must apply before June 30, Anderson pointed out, or they will lose their rights to these new benefit payments.

Any severely disabled person who has worked under social security for at least five years and who has been disabled for six months or more should get in touch with his social security office right away.

If he is between 50 and 65 years of age he may be eligible for monthly disability insurance benefits. If he is under 50, he may be eligible to have his social security record frozen to protect his future right to disability payments, and also his and his family's rights to Old-Age and Survivors Insurance benefits.

Placement of pullet chicks for broiler supply by 10 of the largest primary breeders of broilers during May was two per cent more than in May of 1956.

Bert Weedon Takes Position With American Can

PORTERVILLE, June 27 — Bert Weedon, a graduate of Porterville high school and an employee of The Farm Tribune for several years while he was attending high school, and after graduation, has accepted a position with the American Can Company, where he will receive two years of instruction in San Francisco as a management trainee.

Weedon served two years as a paratrooper after leaving Porterville, and this year graduated from California Polytechnic with a BS degree in engineering, and a major in printing.

DR. J. V. JUDGE TO NEW POSITION

PORTERVILLE, June 27 — Dr. J. Vincent Judge, psychiatrist, has been named director of the Preadmission and Diagnostic service at the Porterville State hospital.

How Important Is Experience?

Obviously, experience is important to success in every field. It is said that Edison painstakingly tried out more than 200 different materials as a filament for his electric light before meeting with success. Similarly, in our own field of funeral direction many years of painstaking experience have enabled us to furnish the high standard of service the community wants at a price the community wishes to pay.

THIS SPACE OPEN
 TO FIRST QUALIFIED MERCHANT
 WISHING TO BE INCLUDED IN
 SILVER BONUS ADVERTISING

The Farm Tribune Silver B

Each week The Farm Tribune awarded to the winner of a great contest the Porterville trade area, 18 years of age.

Secure an official entry blank from The Farm Tribune and complete additional words or less:

"I am glad I trade in Porterville because . . ."

Entries will be received at Silver Bonus Stores. All entries will be judged by a panel of judges. The person who, in the opinion of the judges, will be declared the winner. In the event of a tie, duplicate prizes will be awarded.

A Silver Bonus representative will contact the winning contestant, or phone, the evening of Tuesday, between the hours of 5:00 and 7:00 p.m. If the contestant is not at home, the Silver Bonus representative will call the contestant's home or office and receive his \$5 award.

If the winner is at home to receive his award, he must produce proof of purchase or payment for the Silver Bonus Day — from a Silver Bonus Store — for a bonus award according to the following:

If sales slips amount to more than the entire bonus.

If sales slips amount to less than the entire bonus.

Whatever part of the award is not added to the next week's bonus. The entry will be paid regardless of whether the slip or not.

Entries will be judged principally on the basis of sincerity and quality of thought. Under no circumstances will judges be permitted to know the name of the entry.

All entries become the property of The Farm Tribune. The decision of the judges is final.

Employees of The Farm Tribune and their immediate families are not eligible to enter the contest. Owners and employees of Silver Bonus Stores can win the contest with sales slips from stores other than those with which they are connected.

The Silver Bonus Contest Rules

The Farm Tribune will appropriate \$25 to be used for a great contest. Persons residing in Porterville and 18 years of age or over are eligible.

Entry blank from any Silver Bonus store and complete this sentence in 25 words or less:

I traded in Porterville because.....

Prizes will be awarded at Silver Bonus stores or at The Farm Tribune. Entries will be judged each week and the winner of the judges, has submitted the best entry and will receive \$5. In the event of a tie, the prizes will be awarded.

A representative will call at the home of a winner, the evening of each Silver Bonus week, hours of 6 and 7 and will award a \$5 prize. If the winner is not at home he may call at The Farm Tribune and receive his \$5 award.

At home to receive his \$5 prize and can choose or payment on account that Silver Bonus store or stores, then he is awarded according to the following schedule:

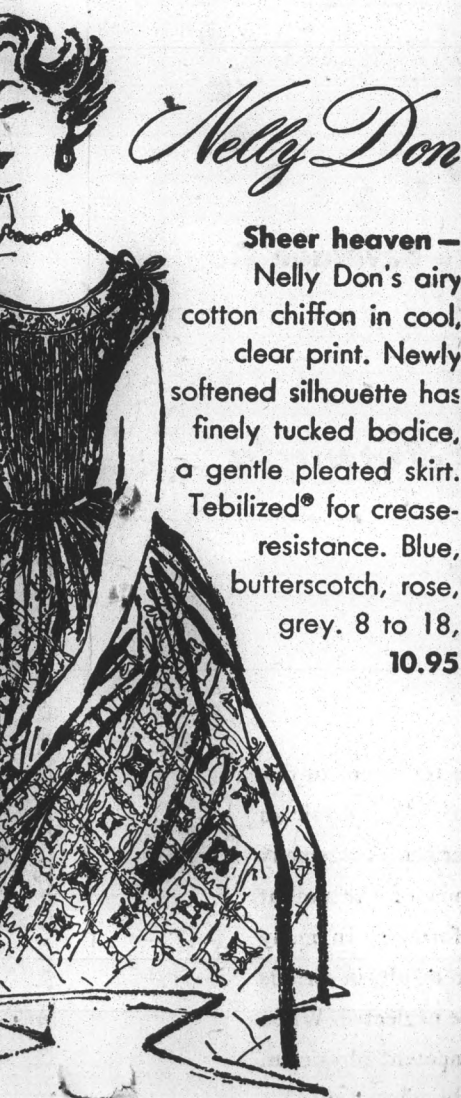

Prize of more than \$5 he will be awarded \$5.
Prize of less than \$5 he will be awarded \$5.

The award is not given in any week will be the bonus. The \$5 prize for the best entry regardless of whether the winner has a sales

Prizes are given principally on the basis of their sales. Under no circumstances will the names of the person submitting

Prizes are the property of The Farm Tribune and are final.

The Farm Tribune and their immediate families enter the contest. Owners and employees can win the additional awards only on other than that with which they are con-

are-Retta

Festive Firecrackers

Bang! Bang! The Fourth of July is here and the sounds of the celebration resound across the countryside. Spur on the celebration at your house with a perky centerpiece of firecrackers that are good to eat!

Puffed wheat provides the snap for these firecrackers. "Kids" of all ages will enjoy molding the puffed wheat and marshmallow mixture into nutritious and wonderful tasting firecrackers. A long gumdrop provides the "fuse" for the unique creation.

Complete your Independence Day table decorations with patriotic nut cups and a few construction paper firecrackers. Wind some red, white and blue ribbon through the centerpiece and you're all prepared for a happy holiday.

Puffed Wheat Firecrackers Makes 8 firecrackers

3 cups puffed wheat
2 tablespoons butter or margarine
1/4 pound (about 16) fresh marshmallows
1/4 teaspoon vanilla
Few drops red food coloring
8 long gumdrops

Heat puffed wheat in shallow pan in moderate oven (350°F.) 10 minutes. Pour into large greased bowl. Melt butter and marshmallows over low heat (may use double boiler), stirring until smooth. Add vanilla and food coloring. Pour over puffed wheat, stirring until evenly coated.

To form "firecrackers," roll puffed wheat mixture with greased hands into eight 2-1/2 x 1-1/2-inch cylinders. While shaping, insert a long gumdrop into top of each cylinder to form a "fuse".

COUNTY MANAGER STUDY CONTINUED

VISALIA, June 27 — Directors of the Tulare County Farm Bureau have voted to continue their study relative to a county management form of government in Tulare county.

Supplies of strawberries continue to be available in volume from southern California and the central coastal district.

Edison-Arvin district in Kern county is now harvesting sweet corn.

OUR TOWN

By Gardner (Bud) Wheeler

WE ARE SITTING IN OUR study earnestly battling the heat wave which the local chamber of commerce assures us is a figment of the imagination. For that matter, our study is likewise a figment of the imagination. Actually, it consists of a corner of the room somewhat off the beaten path. Said path being beaten by sundry neighborhood urchins, including our own, who feel that the shortest distance between two points is through our living room. In the study, we have luxuriant antique furniture; the eye catchers being a three-legged card table, an old orange box and an elderly Underwood that almost pre-dates the typewriter age.

WE HAVE AUGMENTED these luxuriant appointments with a bucket of ice water and a bamboo fan. We have our feet in the bucket and are fanning with one hand and typing with the other; neither hand knows what the other is doing. We just waylaid a moppet and sent him out for a weather study by looking at the thermometer. He just came back to assure us that it was blown all to — well, bits. We feel that pretty well sums up the weather situation.

WE HAVE A STORY WITH A MORAL, although just what the moral is we have been unable to understand. A small but well-built chap of some 12 summers and approximately the same number of winters, stood on his front lawn one Sunday afternoon surveying a small, white object at his feet. Closer inspection revealed that the object was of that much pursued species, the golf ball. By coincidence this small, well-built chap had a golf club in his hand and in the manner of all human beings who finds themselves in this position, he hauled off and hit the ball a firm clout right on the nose. It was a beautiful drive for distance, but unfortunately lacked somewhat in aim. Before the flight was over the pellet gave one of the skylights at Roche school a shattering blow.

WELL, THIS WAS SUNDAY, the day of better than usual deeds, so our young golfer reported his record drive and the results to his immediate superior, who from all appearances was his father. Remembering it was Sunday, it was agreed to report it to the school authorities next day. Honesty being the best policy, and all.

TWO DAYS AGO THIS happy couple received a bill for \$22.90 for one new window. Now this is where the moral part of the story enters. As the young golfer pointed out, "Kids are always wrecking something around school and nothing ever happens, but when I report an accident, we get sent a bill. How come?" Well, these things are hard to explain to small, well-built chaps of 12 summers. "Virtue is its own reward" has a hollow ring when you have just written a check for \$22.90. We know.

We Only Heard

By BILL RODGERS

WHEN PRESIDENT Eisenhower this week suggested to governors of the various states that they set up a committee to determine respective spheres of action and taxation for federal and state governments, with a view toward halting the trend toward greater concentration of governmental power in Washington, he was talking good, common sense. . . . And he hit the nail on the head when he said that "never under our constitutional system could the national government have syphoned away state authority without the neglect, acquiescence, and unthinking cooperation of the states themselves." And he might have added, the people themselves.

THEN HE said, "Every state failure to meet a pressing public need has created the opportunity, developed the excuse, and fed the temptation for the national government to poach on the states' preserves. Slowly at first, but in recent times more and more rapidly, the pendulum of power has swung from our states to the general government." And again he might have added, aided and abetted by pressure from "the people" to get that federal money and spend it before someone else does.

THE PRESIDENT further said, "A distinguished scholar has only recently counseled us that in the measurable future, if present trends continue, the states are sure to degenerate into powerless satellites of the national government in Washington. . . . The irony of it is accentuated as we recall that the national government was itself not the parent, but the creature, of the states acting together. Yet today, it is often made to appear that the creature, Frankenstein-like, is determined to destroy the creators."

"BY DEFINITION of state and federal fields of operation and of taxation, followed by aggressive action of the states in accepting not only their rights but their responsibilities, federal control and federal taxation can be curtailed, while state taxes would not need to increase as much as federal overhead, stopping, in other words, the freight charges on money being hauled from the states to Washington and back (a bill, I remind you, that is always collected in full) would save American taxpayers a tidy sum."

IT IS to be hoped that state governors go to work on the president's ideas; and the pattern

could be followed on down the line — state and county more definitely define their fields of operation and responsibilities, and ditto for counties and cities.

Mussels along the California coast are under department of health quarantine for human consumption until October 30. During the quarantine period, mussels feed on small marine plants that contain a poison that can be deadly to humans.

Daybell
Nursery

By John

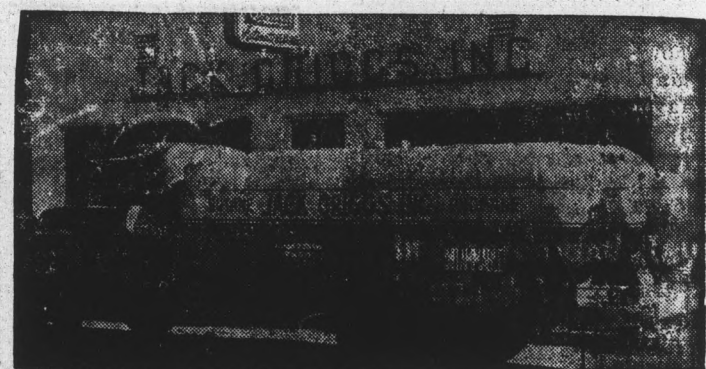

This week has furnished some real Porterville weather—guaranteed to cure rheumatism, unkink your back, and remove ten pounds from anybody. It also provides a topic for conversation and is blamed on the atom bomb, Republicans, Democrats, the life we lead, and the lack of water in Tulare Lake.

There are several ways of avoiding the inevitable, which include fixing the cooler, going swimming, leaving town, or sitting in the shade with a couple of cases of iced beer. A combination of the last three makes for a very pleasant summer.

If the necessity of eating makes it imperative that you stay home like the rest of us peons then you had best water down the shade trees and relax. This involves a little preliminary preparation like fly spray, a good sprayer, a few plants to hide the neighbor's Cadillac, and a supply of openers. We can provide the fly spray, the sprayer, the shade tree, and the plants, but the rest is on your own.

If you're in need of a really tough, inexpensive plant about two feet high to make the neighbors think you're a gardener, we recommend Vinca. This comes in flats at sixty cents a dozen and will survive full sun. Along a different line but equally tough we have Yucca, Aloe, and Pampas Grass in one gallon cans. Practically indestructible.

LEGAL NOTICE

NOTICE TO CONTRACTORS

Notice is hereby given that the Board of Trustees for the Hope Elementary School District will receive bids for the construction of a class room wing addition to be located on the Hope Elementary School Site, Tulare County, California, in strict accordance with the plans and specifications on file in the office of the School Superintendent, at the Hope Elementary School, Tulare County, California.

Plans, specifications, bid forms and documents may be obtained from James P. Lockett, Architect, 121 East Main Street, Visalia, California. Bids shall be submitted on forms prepared by and which may be obtained from said Architect and must be accompanied by a bidder's bond or certified check for not less than ten per cent (10%) of the amount of the bid, payable to the Hope Elementary School District. The above mentioned bidder's bond or certified check shall guarantee that in the event the bidder is awarded the contract he will enter into said contract and furnish the required bonds and insurance within fifteen (15) days after the award of said contract. In the event the bidder refuses or fails to execute said contract and furnish the required bonds and insurance, the use by the Owner of the project will be delayed and the Owner will suffer great damage, but because of the nature of the construction it would be extremely difficult and impractical to fix said amount of damage. Therefore, the bidder shall, by submitting said bond or certified check, be deemed to agree that said sum shall be paid to the Hope Elementary School District under the conditions set forth hereinabove as liquidated damages and not as a forfeiture.

Bids and accompanying documents shall be sealed in an envelope marked "Bids, Class Room Wing Addition, Hope Elementary School District, Tulare County", and placed in the possession of the School Superintendent for the Hope Elementary School District, Tulare County, California, not later than 6:30 P.M., Thursday, July 11, 1957, at which time bids received will be opened and read publicly by the Board of Trustees at the Chambers of said Board of Trustees.

The successful bidder shall furnish a Labor and Materials Bond to the Hope Elementary School District in a form which meets with the approval of the Attorney General of the State of California in the amount of not less than fifty per cent (50%) of the contract price, and a Faithful Performance Bond in favor of the Hope Elementary School District in the amount of one hundred per cent (100%) of the contract price, said bonds to be issued by a surety company satisfactory to said Board of Trustees. The successful bidder shall give satisfactory proof to said Board of Trustees of the maintenance of adequate Workmen's Compensation Insurance and of the maintenance of Public Liability Insurance in an amount not less than \$100,000.00 for one person injured in any one accident, and not less than \$200,000.00 for more than one person injured in one accident, and the maintenance of Property Damage Insurance in an amount not less than \$10,000.00.

The Owner prefers that all bonds and insurance required to be furnished under said contract shall be secured from agents located in the County of Tulare.

Pursuant to Section 1773 of the Labor Code of the State of California, the Owner has ascertained the general prevailing rates of per diem wages, and for legal holidays and overtime work, in the locality for each craft or type of workman needed to execute the Contract and not less than which rates the Contractor to whom the Contract is awarded, and any sub-contractor under him, shall pay to all workmen employed in the execution of the Contract, and said wage rates are as follows:

Craft	Rate	Sun. & over-time	holl-days
Craft Laborers	2.325	T 1/2	DT
Carpenters	3.00	DT	DT
Table or radial saw operator	3.125	DT	DT
Carpenter foreman	3.375	DT	DT
Cement mason	2.995	DT	DT
Electrician	3.25	DT	DT
Electrician foreman	3.65	DT	DT
Painters, brush	2.70	T 1/2	T 1/2
Painters, spray	2.90	T 1/2	T 1/2
Linoleum layers	2.75	T 1/2	DT
Brick layers	3.70 8 hrs.	DT	DT
Brick layer tender	2.70 8 hrs.	DT	DT
Glaziers	2.895	T 1/2	DT
Iron Workers	3.25	DT	DT
Plumber	3.325	DT	DT
Sheet Metal Worker	3.125	DT	DT
Plasterer	3.15	DT	DT
Plasterer tender	3.00	DT	DT
Lather	3.375	DT	DT
Roofers	2.875	T 1/2	T 1/2
Tile Setter	3.125	DT	DT
Teamster	2.45	T 1/2	T 1/2

In case it becomes necessary for the Contractor or any sub-contractor to employ on the work under his contract any person in a trade or occupation (except executive, supervisory, administrative, clerical or other non-manual workers as such) for which no minimum wage rate is hereby specified, the Contractor shall immediately notify the Owner who will promptly thereafter determine the prevailing rate for such additional trade or occupation from the time of the initial employment of the person affected and during the continuance of such employment.

The Owner reserves the right to reject any or all bids, and/or waive any informality in any bid, and/or determine in their discretion the responsibility of any bidder, and which bid is most advantageous to said School District.

Unless otherwise required by law, no bidder may withdraw his bid for a period of thirty days after the date set for the opening.

Dated: June 13, 1957.

NOTICE OF SALE OF REAL AND PERSONAL PROPERTY AS A UNIT

No. 13645

In the Superior Court of the State of California in and For the County of Tulare

In the Matter of the Estate of IRA C. YOUNG, also known as I. C. Young and as Ike Young, Deceased.

NOTICE IS HEREBY GIVEN, that on, or after July 12, 1957, the undersigned, MAUDE EYRICK, as Executrix of the estate of the above named deceased, will sell, at a private sale, to the highest bidder, subject to confirmation by the above named Probate Court, all of the right, title, interest, and estate of the said decedent at the time of his death, and all the right, title and interest the said estate has, by operation of law or otherwise, acquired other than or in addition to that of said decedent at the time of his death, in and to that certain real and personal property described as follows:

The real property to be sold is described as follows, to-wit:

Lots 5, 6 and 7 at Pine Flat in the County of Tulare, State of California, as per Map recorded in Book 17, Page 14 of Maps in the Office of the County Recorder, County of Tulare, State of California, the same being improved with a 3 room mountain cabin.

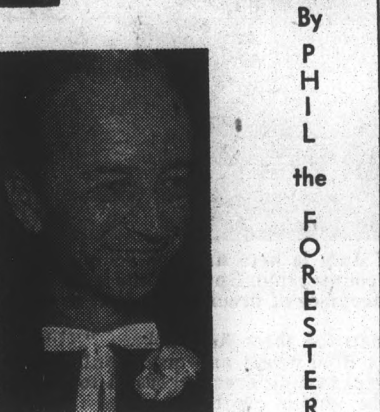

The personal property to be sold is described as follows, to-wit:

Miscellaneous household furniture and furnishings located in and used with the mountain cabin on the above described real property including cook stove, 2 beds, tables, chairs, cooking ware, heater and butane tank.

The property heretofore described by use or relationship constitutes a unit for the purpose of sale of said real and personal property. The said real property and personal property will be sold as a unit in accordance with the provisions of Section 754.5 of the Probate Code.

Bids or offers are invited for said

FINS FOR FEATHERS

Several streams will open to trout fishing on July 1 for the first time this year, having been closed to permit the fish to spawn. Included in these waters that open July 1 are:

Amador county — Tributaries to Silver lake.

El Dorado — Trout creek and tributaries.

Fresno county — Stevenson creek, tributary to Shaver lake. Azalea creek, tributary to Shaver. All tributary streams to Huntington lake.

Tuolumne — Cherry creek and West fork Cherry creek drainage above their confluence, including lakes.

Tuolumne county is expected to furnish the best trout fishing of the season for the next three or four weeks with the Moccasin creek hatchery scheduled to stock some 3,000 pounds of 9 to 12 inch rainbow per day.

Plantings will be made in all the favorite rivers and streams including all forks of the Tuolumne, all forks of the Stanislaus, with special attention to the upper

real and personal property as a unit and must be in writing and may be delivered to said Executrix, or to the office of her attorneys, Burford, Hubler & Burford, 520 East Mill Street, Porterville, California, or may be filed in the office of the clerk of said Superior Court at any time after the first publication of this notice and before the making of said sale.

Terms and conditions of sale: Cash in lawful money of the United States of America, ten per cent of the amount bid to accompany the offer and the balance to be paid on confirmation of sale by said Superior Court. Taxes, rents, insurance premiums and operating and maintenance expenses shall be prorated as of the date of confirmation of sale. The examination of title, recording of conveyance and any title insurance policy shall be at the expense of the purchaser or purchasers.

Dated: June 26, 1957.

MAUDE EYRICK as Executrix of the Estate of the above Decedent.

BURFORD, HUBLER & BURFORD by BURKE E. BURFORD Attorneys for Executrix

ju27j14, 11

reaches of the Middlefork from Kennedy meadows to the Dardanelles. Plantings are to be made in the Italian Bar and Frasier's crossing as well as in Lyons reservoir and Strawberry lake.

Other areas to be planted during this intensive planting period will include Lake Alpine, Merced river, the Southfork of the Tuolumne river and San Antonio creek.

All streams of Tuolumne county and surrounding areas are running clear and lowering to the point where fly fishing is reaching its best. Strawberry lake at Pinecrest is still full and clear and is giving good to excellent fishing. Both flies and bait have been providing results on the Tuolumne river near Jacksonville, on the Moccasin creek and Stanislaus river near Strawberry.

Practically all lakes below 10,000 feet are now free of ice although most of them beyond that are still closed.

In Madera county, Granite creek area has opened up and Cora lake there has been providing some beautiful Eastern brook to 14 inches. Granite creek and the Northfork of the San Joaquin river at Sheep crossing are still too high for really good fishing.

Stream flow on the west side of the Greenhorn has been holding up must better than expected and the water is in excellent fishing condition now. Anglers are able to fish Tobias and Upper Bull Run creeks where they have been taking small rainbow on bait and brown trout on flies.

Movement of yellow onions from the Stockton area — active for the past two weeks, will be virtually completed by the end of the month.

Honeydew melons are now moving from the Blythe district.

News Of The SPRINGVILLE COMMUNITY

By WINNIE GAGE

Mr. E. H. Crabtree of Grant's Pass, Ore., is here visiting his daughter and son-in-law, Mr. and Mrs. Muriel Northrup, and his son, Lyle Crabtree and family.

Mrs. James Cross has returned home from an eight day visit in southern California with her sisters, Miss Elsie Peacock of Pasadena; Mr. and Mrs. Charles Canterbury of Alhambra; also a niece, Mr. and Mrs. Fredrick Wile of North Hollywood. Mrs. Canterbury and a friend, Miss Francis Roberts of Eagle Rock, returned here with Mrs. Cross.

Mr. and Mrs. Bill Dye have returned from a three weeks trip to Annapolis, Maryland, to witness the graduation of his nephew, Wilson Whitmire from the Naval Academy. They also saw the Naval review at Norfolk Virginia, and the celebration at Jamestown and Williamsburg. They also had a short visit in Canada and on their return trip visited Mr. and Mrs. Archie Surber at Lewistown, Montana, and at Darby, Montana, visited Mr. and Mrs. Kenneth Wolfenbarger and other friends. They reported they were in rain in every state but California.

The Springville Hobby Club met Friday, June 21, in the home of Mrs. Winnie Gage. The business meeting following roll call and reading of treasurer's report and minutes of the May meeting were very short.

Refreshments of cake, ice cream and iced tea were served to Mesdames Mary Lunsford and Gwendolyn Myrick of Porterville; Lora Gage, Ethel Rush, Pat Fine, Golda Haggard, Winnie Gage, Nona Smalridge and Misses Sylvia Wyld and Lucille Higgins. Guests were Mrs. Dortha Gage of Naselle, Wash., Mrs. India Cross, Mrs. Mildred Negus and Mrs. Nora Haig and Mrs. Ruth Martranga.

The next meeting will be with Mrs. Nona Smalridge.

Mr. Stanley Reiff and Mrs. Mary Davis were married Saturday evening at 8 o'clock on the lawn at the home of her daughter, Mr. and Mrs. Joe Fine, who were their attendants.

The double ring ceremony was performed before a background of vines and flowers by Rev. Fern Stanley, assisted by Russell Harris of the Trinity Southern Baptist Church of Porterville.

The bride's gown was of white nylon lace over blue taffeta and was made by Mrs. Alta Bledso. The bride's corsage was tiny pink roses. She was given away by her youngest son, Jack Davis, of Torrance.

A reception on the lawn followed the wedding, where cake and punch was served to the nearly fifty guests present.

Out-of-town guests were two of Mrs. Ruff's daughters, Mrs. Lee Sandreen of Wilmington, and Mrs. Ruth Cartwright, of South Gate; Mr. and Mrs. A. W. Burris and children, Pat and Sharon and Mrs. Edith Daniels of Woodlake; Mr. and Mrs. Jim Davis of Lake Tahoe.

The groom is manager of the Tidewater service station on highway 190, having moved here from Los Angeles four months ago.

The new Mrs. Reiff is well known in this community, having lived here while working at the Springville Sanitarium and the Porterville State Hospital. She is also the mother of Mrs. Stanley Radeleff of Springville.

LAND TRANSFER WILL BRING WATERFOWL AREA

WASHINGTON, D.C., June 27—Administrative transfer of about 4,350 acres of acquired lands west of Pixley, in California, from the U.S. Department of Agriculture to the U.S. Department of the Interior is being proposed to facilitate wildlife and land conservation programs, the two Federal departments have announced.

The proposed transfer consists of lands acquired for rehabilitation about 25 years ago under various laws which later became the Bankhead Jones Act. These lands, comprising a major portion of a land utilization project in Tulare county, are now used for grazing and agriculture. Approximately 800 acres of the project lands are being retained for the use of the Forest service.

The lands proposed for transfer will be administered by the United States Fish and Wildlife service, and upon development will help fill a critical need for a waterfowl feeding and resting ground in the upper San Joaquin valley. Existing contracts and permits on these lands would continue in effect at the present fees and the county's percentage of the receipts would also remain the same.

The Forest service explained that the lands proposed for transfer were in a depleted condition at the time of acquisition by the Federal government, due to overuse, drought, or wind erosion. Under the department of agriculture's rehabilitation program, however, grass cover has been established.

Present land users and other interested groups are being contacted by local representatives of both departments to explain details of the transfer. Comments may be submitted to the Regional Forester, Forest Service, San Francisco, California, or to the Regional Director, Bureau of Sport Fisheries and Wildlife, Portland, Oregon.

Booklet On Curry Offered

To put new interest in your parties, you'll want a copy of the new cook-booklet entitled "Entertaining with Curry." These hot seafood appetizers, the perfect "go along" for a glass of ale or beer, are among the featured recipes.

The booklet is available without charge to anyone who sends a request to: United States Brewers Foundation Inc., 535 Fifth Avenue, N.Y. 17, N.Y.

CURRIED APPETIZERS

Pastry Shells:

- 2 bars (1 cup) margarine
 - 2 3-ounce packages cream cheese
 - 2 cups sifted enriched flour
- Let margarine and cream cheese soften in mixing bowl at room temperature about 1 hour. Work with wooden spoon until smooth and creamy. Add flour in fourths, blending thoroughly after each addition. Refrigerate dough about 30 minutes. Pinch off small pieces of dough and shape into 1-inch balls. Put each ball of dough in cup of small

(1-3/4-inch) muffin pans. Press dough against bottom and sides, lining each cup evenly with dough. Bake at 425 degrees 10 to 12 minutes or until pastry is golden. Let stand 5 minutes; lift out of pan. Cool on wire rack.

Curried Filling:

- 1 tablespoon margarine
 - 2 tablespoons chopped onion
 - 2 tablespoons curry powder
 - 1 teaspoon flour
 - 3/4 cup light cream or milk
 - 1/4 teaspoon garlic salt
 - 1/8 teaspoon pepper
 - 1 tablespoon lemon juice
 - 1 cup canned crabmeat, shrimp, lobster or tuna
- Melt margarine in a large skillet. Add onion and saute until tender. Add curry powder and flour; stir to blend. Gradually stir in cream. Cook until thickened, stirring constantly. Add garlic salt, pepper, lemon juice and seafood. Keep hot over simmering water. Spoon into shells and serve as snack accompaniment for ale or beer. Makes about 4 dozen.

NEW TRIAL HEARING SET IN PHOTO CASE

VISALIA, June 27 — Motion for a new trial in the case of six of the seven individuals involved in the Springville photo case will be heard Tuesday by Superior Court Judge W. G. Machetanz.

Last Friday a jury found all defendants guilty in the case that involved a charge of conspiracy to produce lewd photographs and of conspiring to produce obscene photographs.

Dr. Robert C. Gorham, Miss Susie Pinckard, Joyce Jenkins, Mrs. Dena Hamel and Mrs. Vivian Davis, all guilty on both counts; George W. Davis and Barbara Jenkins, guilty only on the first count. The jury recommended leniency for Mrs. Davis.

Dr. Gorham has not as yet asked for a new trial; he now faces civil suits in behalf of Donna Gayle Boyd, 14, and Rose Mary Booth, 18, of Springville, asking \$10,000 each for invasion of privacy. The actions were filed by the girls' parents.

San Diego and Los Angeles areas are supplying bulk of the state's/snap bean supply.

(Continued From Page One)
still difficult indeed to get a glass of fresh orange juice in Porterville at any price — and right here in the center of California's great citrus industry.

Our page 1 picture in our first issue was of the late Golden Glory, the famous Poland China boar that started Rolla Bishop on the road to fame as a swine breeder and showman. And we also had a picture of Jimmie Martinez, Ducor 4-H, with his champion fat steer at the 20th annual Tulare County 4-H Achievement day.

And there was a story about the first mechanical cotton picker to be brought into this area — by Maurice Henderson; we reported that Oren Sheela and Ray Williams were co-chairmen of the Porterville exhibit in the 1947 Tulare-Kings County fair; we announced a \$75,000 building program at the Tule River Cooperative Gin, Inc. at Woodville; we had a story about the largest field of sweet corn in Tulare county that was being grown by Frank and Tom Cannella near Ducor; we announced that Clarence Toole was to be director of the 4-H summer camp at Whitaker forest, and we told of a meeting at Berkshire's Palm cafe to talk about new route for highway 65 through the Porterville community.

Two advertisers whose ads appeared in the first issue of The Tribune — Meyers Funeral Service and Jones Hardware company — have not missed an issue of The Tribune through the following 10 years.

Vic Bowker was our first paid subscriber — and he still subscribes; a number of subscribers who started during the first month of our publication are still

on our list.

So here we go into our second decade. My goodness, we're getting old.

DOYLE COLONY

By George A. Heintz

Started to feel: A wee bit better about the trustees "latchin'" onto our school cafeteria last week after Cecil Francis, Cecil's Drive-In, said he'd read the column. Then he added that the only reason he perused my masterpiece was because he was in the dentist's chair and needed something to "take his mind off what awaited him" — so, am right back down on rock bottom!

Latest Developments: The re-activated old labor camp across the tracks from Tucker Street is open for business — The Success Dam project is getting to be a football game — seems like the S. P. attorneys are now carrying the proverbial ball and "calling signals" — "Open House" for those three new homes just completed on N. Leggett Drive.

Juvenile Decency: The some thousand youngsters taking the Red Cross swimming course at Cumming's Swimmin' hole — a Cub Scout carrying his crippled, barefoot friend across the hot pavement on Date Street — over on B Lane, a 10-year-old sprinkling water on his feathered friends in 110 degree temperature, while sweat was trickling down his brow.

Did you know that: over 20 different kinds of minerals, including gold, have been found within 20 miles of the Colony — that a large Indian village, used to be located just east of the State Hospital — that the hill behind

the Hospital used to be called Cottontail, and the Yocut Indians used to have their "radio station" on top, (smoke signals).

Odds and ends: Grevilla Street is named after a type of tree — Jack-Bryson, Rainbo' Market, threw his crutches away — Holbrook has 160 goats in his fold now, and feeds 'em potatoes by the ton — Lee's new grocery on Sycamore will soon be open for biz.

While they last: At Naomi and Walter Hunt's, East Porterville P. O. three cent stamps — 5 for 15 cents; buy 'em before the price goes up.

New Postal Rates

(Continued from Page 1)
\$5.00 will increase from 10 cents to 15 cents; orders of from \$5.00 to \$10.00 go from 15 cents to 20 cents, and from \$10.00 to \$100.00, charge will be 30 cents, with present intermediate class between these amounts discontinued.

Cost of return receipts will raise from seven cents to 10 cents; and restricted delivery from 20 cents to 50 cents.

First class letters will still go for three cents; air mail for six cents.

There are at present several bills before Congress that would raise first-class, and other rates. One bill that appears to be getting the most serious consideration would raise first class letters to four cents and air mail to seven cents.

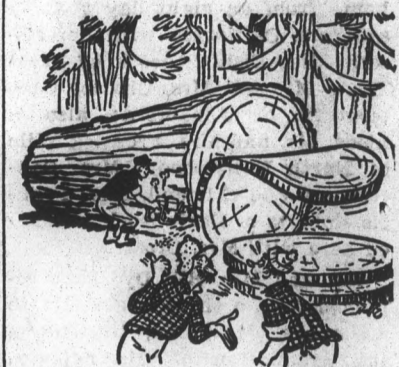

LIBRARIES CLOSE ON SATURDAY

VISALIA, June 27 — Strathmore and Terra Bella libraries will be closed on Saturdays through July and August, it has been announced by County Librarian Hilda Collins.

Lots Of Fish

(Continued From Page One)
Henry Hughes; Gaylord Hubler, Edwy Luker, Tom Martinez, Joe Ridgway, Fred Wall and Frank Hallford, with his son, Dick, all of Porterville.

Lucien Smittou, with his grandson, Chuck Norton; Jerry Stiner and Bob Miller, of Visalia; Arlo Awbrey, of Strathmore, and Tom Knight, of Los Angeles.

Before he bought a McCulloch, George worked in a meat market

You can do more than fell and buck trees with a McCulloch chain saw. You can limb, slab, cut cordwood and posts. But here's one of the most important things you can do — you can pick up your McCulloch in one hand, and carry it easily to the next cut. Try that with any other big-timber saw.

Visiting Hours

Within the next few days, stop by our store for a real demonstration of wood cutting. Or give us a call and we'll try to arrange a show for you at your place. There's no obligation. We want you to see what a McCulloch can do.
